A SEA OF EXPECTATIONS

Since 1964 Viking has followed an unyielding mantra to build a better boat every day. This commitment to focus on challenging ourselves to design and build the best has led us to lead the industry with the world's most eminently regarded fleet of luxurious sportfishing convertible and motor yachts. As a family owned and operated business, our resolve is deeply rooted within our skilled and talented workforce, our dealer network, and most importantly all of our Viking owners who share our quest.

The Viking 75 Motor Yacht, a made in America, ground breaking design represents a new generation in its class. From advanced resin infused construction to mechanical superiority and performance to unrivaled accommodations, the 75 Motor Yacht delivers a new level of expectations where contemporary styling merges with state-of-the-art systems transporting the yachting lifestyle to a totally new level in the Viking tradition. Welcome aboard.

ULTIMATE CROSSOVER

EXPERIENCE

75|MY

PASSION FOR
ELEGANCE

A fusion of sophistication, comfort and sociability greet you as you enter the salon. Surrounded by walnut furniture enriched with designer furnishings and a home theater center, the mood is contemporary, classic, and ever so inviting. Whether al fresco dining on the aft deck while anchored in a secluded cove, a more formal affair in the salon at the yacht club dock, or enjoying morning coffee in the forward lounge before getting under way, every day aboard the 75 Motor Yacht will be one to remember time after time.

EVENING PORTS

In the full beam master suite with its king-size bed, the hand-finished walnut joinery creates a symphony of elegance with layers of details rich in substance and luxury. Appointed to impress your affinity to appreciate the finer things, amenities include a flat screen television, a theater system, a vanity and a love seat, while the engaging hull-side windows enlighten the expansive room with airy essence. Vessel sinks, granite treatments, a walnut vanity, and an imported tiled shower complement the master head.

Sweet dreams are assured in the three additional abundantly appointed staterooms delighting family and guests in sumptuous comfort by providing privacy and total contentment. The forward VIP and port staterooms feature queen-size walk-around beds with upholstered headboards, with the other stateroom providing twin berth accommodations. Each stateroom is provided with a spacious head and fiberglass shower stall.

DESTINATIONS AWAIT

Span your horizons and live your dream every day as you connect with the sea. The available enclosed bridge is climate controlled and melts sea miles into a pleasurable passage with Stidd seating forward, and a masterfully designed helm station with its electronic navigation package. A formal yet comfortable salon area with a plush L-shape lounge aft expands every upper view, while the walnut cocktail table creates a sociable touch for intimate entertaining and relaxing. A sliding glass stainless-steel framed door leads to a spacious upper after deck. Cocktails anyone?

ENGINE ARTS

The crew quarters and the engine room are reached from the teak planked hydraulically operated swim platform providing both privacy and accessibility. Equipped with two staterooms, a head with a fiberglass shower stall, and a convenient galley, the accommodations are exceptional. As you would expect aboard a Viking yacht, the mechanical installations and systems are peerless and include chilled water air conditioning, a hydraulic bow thruster and windlass, a pair of generators and Viking's proprietary VIPER (Viking Independent Programmable Electro-hydraulic Rudder) steering system.

VIKING 75 MOTOR YACHT SPECIFICATION HIGHLIGHTS

Overall Length	78’ 6” 23.92 m
Beam, Overall	20’ 1” 6.09 m
Draft	5’ 2” 1.57 m
Height, Waterline to Top of Enclosed Bridge	21’ 2” 6.65 m
Height, Waterline to Mast Head Light	25’ 7” 7.79 m
Displacement (Standard Fuel Load)	130,000 lbs 58,967 kg
Fuel Capacity Standard	1,650 gal. 6,245 l
Fuel Capacity Optional	1,855 gal. 7,021 l
Water Capacity	302 gal. 1,143 l

Designer: Michael Peters

Construction

- Awlgrip brass thru hulls and sea strainers in engine room and forward bilge
- Awlgrip engineroom, lazarette, forward bilge and anchor locker
- Fiberglass side thru-hulls
- Foredeck skylight with hatch with Ocean Air screen shade system
- High gloss walnut interior finish throughout
- Hull infused end-grain balsa core sandwich fiberglass laminate
- Propeller pockets to reduce draft
- Strut and shaft log covers on hull bottom to reduce drag and increase and increase performance
- Vacuum bagged composite bulkheads

Mechanical

- Air conditioning - chilled water, 8 tons (two 4 ton units), zoned with reverse cycle heat for complete climate control throughout the interior and with individual temperature controls for staterooms and salon
- Bow thruster, hydraulic
- “Delta T” engineroom ventilation system with thermostatically controlled supply and discharge fans for proper fresh air circulation and water intrusion suppression
- Fuel priming pumps for main engines, electric
- Fuel transfer system
- Oil changing system, gear type pump for main engines, transmissions, and generator with pump out line to run to aft deck locker
- Propellers, class “S” pitch tolerance (ISO 484/2 and dynamic balancing), advance design cambered blade sections for optimum performance. Interceptor strips to adjust engine load. Nibral alloy for maximum durability
- VIPER - (Viking Independent Programmable Electro-hydraulic Rudder) steering system with electronic interface for additional stations and future Auto Pilot
- Windlass, hydraulic

Electrical

- Charles Iso-boost transformer (2) 100 amp with ground plate
- Color-coded, labeled and numbered wiring system with corresponding drawings
- Dimmers, DC interior LED lighting throughout excluding the companionway
- Generators, Diesel - (2) 29kW Onan QD (electronic quiet diesel) Series, user-friendly with electronic governing allowing voltage and electronic frequency control
- Glendinning Cablemaster (2) with 3 wire grounded cord
- Magnetic switches for bilge lights
- Master electrical control provided via Power Distribution System utilizing a Can Bus control for AC/DC remote breaker electrical systems. Complete system control and monitoring provided by 3 integrated touch screen controls - (1) located at salon (1) at flybridge and (1) main in crew area

Flying Bridge Open (Standard)

- Battery system dedicated to flybridge electronics with battery charger
- Chill box
- Custom helm pod with electronic engine controls and instrumentation
- Depthfinder/sea temperature gauge - Furuno RD-30
- Recessed electronics box in console for custom electronics package that is easily viewable and protected from the elements by acrylic fitted lid with gasket and stainless steel gas pistons
- Seating to port and starboard and dinette with vinyl covered foam

cushions, hinged for access to storage under seats
- Sunbed with storage
- Touch screen monitor with audible and visible alarms: fire, engineroom temperature, high bilge water, high exhaust temperature, generator and tank monitors as well as confirming correct system operation
- Wet bar including grill, refrigerator, and ice maker

Flying Bridge Enclosed(Optional)

- Air conditioning with reverse cycle heat, temperature control and dehumidification mode
- Cocktail table - walnut, hi/lo
- Forward control station with all necessary control switches, lighted instruments, engine controls and VIPER steering
- L-shape lounge with storage underneath
- Refrigerator/freezer in place of refrigerated chill box
- Touch screen control monitor with audible and visible alarms: fire, engineroom temperature, high bilge water, high exhaust temperature, generator and tank monitors
- TV, LED flat screen
- Wet bar w/ ice maker on aft bridge deck

Aft/Side Deck

- Dockside electric connection - (2) 100 amp/220V electric retractable
- Glendinning Cablemasters in closeable boxes
- Hydraulic swim platform w/ teak
- Seating, large U-shape seating area
- Side entry door, full height, starboard side deck
- Stereo speakers tied into salon stereo with remote control
- Teak decking to midship step
- Teak table on stainless steel pedestal

Bow Seating/Fore Deck

- Anchor freshwater wash down
- Anchor windlass, reversible, with foredeck remote control
- Bow seating area
- Cup holders
- Fender stowage lockers
- Sunpad

Salon/Dining Room

- Air conditioning with reverse cycle heat that circulates from concentrated vents behind the valances to maximize comfort while minimizing noise and drafts - individual temperature control
- Bar cabinet with bottle and glass storage
- Dining table with seating for 6
- Home theater center with 65” LED TV on a raise and lower mechanism with antenna or cable hook-up, and Bose system with custom surround sound, aux audio input jacks to accommodate additional equipment
- Ice maker clear ice type concealed in walnut cabinetry behind door
- Touch screen control monitor with audible and visible alarms: fire, engineroom temperature, high bilge water, high exhaust temperature, generator and tank monitors as well as confirming correct system operation
- Walnut cabinetry

Galley/Dinette

- Countertop, custom L-shape granite
- Dinette sofa (2) with removable cushions and storage underneath, seating for 6
- Electric range, 4-burner cook top, surface mounted
- Full size upright refrigerator
- Garbage disposal in sink
- Microwave/convection oven
- Oven, built in
- Sink, double-bowl, stainless steel, undermounted in countertop with satin nickel galley faucet
- Trash compactor

Master Stateroom (Full Beam)

- Bed, king-size, walk-around Viking Slumber #8
- End tables each side of bed
- Entertainment center, FM/DVD surround sound system with subwoofer
- Headboard, upholstered
- Reading lights, overhead with separate switches
- Seating, love seat
- Telephone outlet
- TV, 46” flat screen
- Vanity/desk with storage, mirror, and chair

Master Head

- Countertops, custom granite level 1
- Linen storage with shelves and mirrored doors
- Medicine cabinets (2) with mirrored doors
- Mirror around upper vanity insert
- Receptacle, 120V-GFCI
- Shower light
- Sink, twin, vessel with faucet
- Stall shower, tiled with glass door and satin nickel shower fixtures and with drain to automatic sump pump in bilge
- Towel bar and ring - satin nickel

Crew Companionway

- Countertop Corian
- Main electrical panel with AC selector breakers and touch screen control monitor with audible and visible alarms: fire, engineroom temperature, high bilge water, high exhaust temperature, generator and tank monitors
- Microwave
- Refrigerator
- Transom and engineroom access
- Walnut side board cabinet and storage

THE VIKING DIFFERENCE

The Viking Yacht Company is located on the Bass River, a winding, marsh-lined tributary, which feeds into the Mullica River and flows into the Great Bay. Building a better boat every day has been Viking's philosophy for over five decades, and why Viking rules the industry today in performance, innovation, engineering and luxury. And Viking will also lead tomorrow because its commitment to excellence is reflected in the "Viking Difference."

Family Business: Brothers Bill and Bob Healey founded the Viking Yacht Company in 1964 and remains family owned and operated. Viking is a debt free company and answers only to its unwavering commitment to design and build the finest boats money can buy.

State-of-the-Art-Facility: Our modern 862,000 square foot manufacturing facility is equipped with the latest technology and machinery and defines the cutting edge of yacht building with multiple CNC routers and computer operated five-axis profiling machines. Our talented and skilled work force is equally dynamic.

The 90 Percent Factor: Other than a few major components, such as engines and appliances, virtually every part of a Viking is designed and manufactured on the premises. Whether it is a fiberglass fuel tank or a wiring harness labeled every eight inches with its function, you can be sure of incomparable quality.

Front and Center: New product is the pulse of an engineering-driven company. Viking has the youngest fleet in the marine industry and new models are introduced regularly.

Quality Control: With multiple production lines, Viking builds yachts from 42 to 92 feet. By manufacturing most of the components in house, Viking has an inherent quality control advantage. Each yacht is thoroughly inspected by dedicated personnel during the build process. This attention to detail ensures greater reliability, safety and customer satisfaction.

Finest Service: Experienced service personnel with an intimate knowledge of on-board systems stand behind every Viking Yacht. You never go to sea alone when you own a Viking.

Viking Service Center & Viking International Yacht Center: Located on the Intracoastal Waterway in Riviera Beach, Florida, and just minutes from Palm Beach Inlet, our two modern service yards handle warranty, repairs, and major renovations. Staffed by Viking-trained professionals, Viking is the only manufacturer to provide its owners with satellite facilities solely for their convenience.

Preferred Insurance Risk: Vikings are highly regarded by insurance carriers.

Resale: Top-shelf engineering enables Vikings to deliver value, not only when you are using it, but also at resale time.

Vertical Integration: To complement the Viking experience, we have created two sister companies. Palm Beach Towers designs and crafts the finest aluminum tuna towers, custom railing, fiberglass hardtops, drop-down electronic boxes, flush-mounted electric teaser reels and a host of other specialized items. Atlantic Marine Electronics is the premier source for Viking installed navigation, communication and entertainment equipment. By specifying Palm Beach Towers and Atlantic Marine Electronics for your accessories, you are assured one-stop shopping and will take delivery of your new Viking turnkey ready.

Total Focus: Continuous development with innovative details is the hallmark of a leading edge company. Every model we build represents a commitment to build a better boat every day.

Lead Not Follow: Viking raises the bar by incorporating the best in design and performance. From technical achievements like resin infused construction and tank testing to designer touches and exquisite joinery, Vikings are the epitome of luxury, quality, and seagoing excellence.

"Building a better boat every day."
